### Tract or Repetitive Fees:

Plan Review Fees: 25% of original fee

Inspection Fee: As noted on the published schedule

### Example of Residential Remodel Plan Review and Inspection Fee<sup>2</sup>:

Objective: Find the Plan Review & Inspection fee for a 537 sq. ft. Condo remodel.

- Solution:
- Closest sq. ft. less than 537 is 500. Thus, a Plan Review fee base is \$1,303.64 and Inspection fee base is \$1,824.84.
  - Increment above 500 sq. ft. is 100 sq. ft. Incremental price for Plan Review is \$164.26 per 100 sq. ft., Incremental price for Inspection is \$182.48 per 100 sq. ft.
  - Total Plan Review fee is  $\$1,303.64 + \$164.26 = \$1,467.90$  and the Total Inspection fee is  $\$1,824.84 + \$182.48 = \$2,007.32$ .
  - Combined Total Fee is total Plan Review fee of \$1,467.90 plus the total Inspection fee of \$2,007.32. Combined total fee is  $\$1,437.00 + \$1,965.08 = \$3,402.08$ .

Footnotes:

<sup>1</sup> Per 100 square foot or fraction thereof (i.e. 602 sq. ft. would be 500 + (2 x per 100 sq. ft))

<sup>2</sup> Excludes City of Milpitas Standard Permitting Fees and State of California Fees

#### Example of Plan Review Fee<sup>2</sup>:

Objective: Find the Plan Review fee and Inspection fee for a 18,915 ft<sup>2</sup> Business T. I. project.

Solution: a. Closest sq. ft. less than 18,915 is 10,000. Plan Review fee base is thus \$10,180.28. Inspection fee is \$14,370.65.

b. Increment above 10,000 sq. ft. is 8,915 sq. ft. Incremental price for Plan Review is \$16.61 per 100 sq. ft., so product is  $90 \times \$16.97 = \$1,527.30$  total for Plan Review. Incremental price for Inspection is \$53.89 per 100 sq. ft., so product is  $90 \times \$53.89 = \$4,850.10$  total for Inspection.

c. Total Plan Review fee is  $10,180.28 + \$1,527.30 = \$11,707.58$ . Total Inspection fee is  $\$14,370.65 + \$4,850.10 = \$19,220.75$ .

d. Combined Total Fee is total Plan Review fee of \$11,707.58 plus the total Inspection fee of \$19,220.75. Combined total fee is  $\$11,707.58 + \$19,220.75 = \$30,928.33$ .

### Example of Electrical and Plumbing Fee<sup>2</sup>:

- Objective: Find the fee for a business upgrade where 34 electrical switches are upgraded with occupancy sensors, and 2 backflow protection devices are installed.
- Solution:
- Permit Issuance fee of \$196 applies (there is more than one specialty permit issued, so only one permit issuance fee will be charged).
  - First 20 occupancy sensors have a fee of \$114, each additional 20 occupancy sensors have a fee of \$93, so occupancy sensors total is \$114 + \$95 and total is \$209.
  - First 5 backflow protection devices have a fee of \$171, so total for 2 backflow protection devices is \$171.
  - Total cost is \$196 permit fee, plus \$209 for occupancy sensors, plus \$171 for backflow protection devices. Total fees are \$196 + \$209 + \$171 = \$576.
